

July 19, 2008

To whom it may concern;

I have known Rochelle Kilberg for approximately 7 years. I coached her for the preparation for the 2003 Pan American trials at the Prix St. George and Intermediare level. Rochelle was successful at these trials finishing in the top six. During these years she also was successful in achieving short and long listed status for Canada.

She now owns her second Grand Prix horse, and is riding very effectively, training the components to ride this level with knowledge and feeling. She has been successful with both these horses in the competition arena. Rochelle is also training her up and coming young horse, to go up through the levels, and has this horse competing at 3rd level schooling Prix St. George movements.

She has a good foundation and understanding of the fundamentals of dressage and is enthusiastic about passing along this information to her students.

Sincerely,

Leslie Reid.
